MR20DD
Max Power:
150PS / 6,000rpm

Max Torque:
200Nm / 4,400rpm

Energy Efficient Vehicle
Fuel Consumption
14.2km/L (NEDC R101)**

NISSAN's 2.0L TWIN CVTC (CONTINUOUSLY VARIABLE VALVE TIMING CONTROL) engine is paired with XTRONIC CVT (CONTINUOUSLY VARIABLE TRANSMISSION) WITH ADAPTIVE SHIFT CONTROL (ASC) to deliver a powerful drive with class-leading fuel economy.

The S-HYBRID system is mounted with an upgraded ECO MOTOR that controls the idling stop system and provides additional torque assist in start-up acceleration.

New DUAL ARM TENSIONER (DAT) in the engine keeps optimal tensile force on the belt to reduce friction, power lost and increase fuel efficiency.

ECO MODE assists the driver to drive in a way that contributes to improved fuel efficiency.
